ITINERARY

Located in a proclaimed Marine National Park, Bazaruto Island is one of several islands making up the Bazaruto Archipelago. This uncommercialized island offers a true, unspoiled African island experience, from kilometres of sandy white beaches, crystal clear azure seas, superb coral reefs and dive sites, soaring sand dunes and exuberant bird life, to abundant marine life including big game fish such as Black Marlin.

The azure waters of the Bazaruto Archipelago, the premier attraction of Indigo Bay, offer an array of spectacular marine life. Fortunate visitors may view the variety of turtle species that can be found in these waters, along with the rare and near-extinct Dugong.

The Indigo Bay Island Resort offers a wide range of services and activities, including some of the world's best diving, deep sea and bill fishing, as well as a range of water sports, horse riding, island drives and ocean cruises

All chalets and main living areas at Indigo Bay Island Resort Hotel are constructed of natural materials like reed, thatch and wood to blend harmoniously with the surroundings.
